

# quick start guide

The Seal One application is not running.  
Your device is not ready for operation.

Start the Seal One application  
on your computer (a virtual cd-drive  
will be automatically staged).

– OR –

Download the zip file, open it  
and start the application.  
[www.seal-one.com/start](http://www.seal-one.com/start)

start the application

Your Seal One device is ready for use,  
now you can enroll with an  
acceptance partner.  
Please follow the acceptance partner's  
instructions.

If you ever have problems with the installation,  
please contact our customer services department.
